

PE and Sports Premium for Primary Schools Impact Review

The Impact of Sports Premium at Grange Lane Infant Academy 17-18

Impact on Staff

The sports premium has had a huge impact on staff and their knowledge of PE and Health and Well-Being. The money has allowed the PE co-ordinator to access training around Health and Well-Being to broaden their knowledge of the subject area as a whole. We have also been able to provide staff with more stimulating resources to use when teaching their PE lessons. Through use of the sports premium, staff have been able to access CPD through observing Mini-Kicks and using the skills and knowledge they have learnt in their own PE lessons. In turn, all of this is having a huge impact on the quality of lessons that the children receive as well as the quality of their Health and Well-Being.

Mini-Kicks

Through the use of sports premium we have been able to use the external provider Mini-Kicks to provide sessions for KS1 children. This is proving very popular with the children as the sessions are led by very enthusiastic coaches who engage the children brilliantly. We have now been able to employ Mini-Kicks to run 2 lunchtime clubs a week for KS1 children. As well as this we are now running 2 nurture groups for 16 children in KS1. During this academic year, Mini-Kicks will be training children up to become Mini Coaches as well as providing training for staff. We will also be taking part in a variety of competitions both intra and inter school. Through this relationship with Mini-Kicks, the founder, Ben Hunter, is now an EAB for our school.

Curriculum and Equipment

Through the use of sports premium we have bought into the Mini-Kicks curriculum which they are providing training on for staff. They assess the children in their sessions which allows us to build upon what they have previously learnt. We also use the, 'Real PE' curriculum alongside this which teaches children about the physical aspect of PE but also other aspects such as, social, personal, creative, etc. This curriculum is engaging both children and teachers and showing lots of progress in various skills. We were also able to buy lots of new resources to compliment this new curriculum as well as new resources for our playground leaders to use with the children at playtimes. We have also used our sports premium for new playground markings.

Youth Sports Trust

We currently hold a Silver Youth Sports Trust Quality Mark which measures the impact of sport and PE in our school. We were previously bronze; however, the sports premium has allowed us to bring in fantastic new clubs, staff development, resources and ideas to allow us to progress to silver.

Extra-curricular clubs

We currently have Street Dance run by Cre8ive Dance which is very popular club and often has a waiting list! We also have a Healthy Cooking club running for Reception children which teaches them about the importance of eating healthily and trying new foods. Each week we cook a healthy meal for the children to take home. Our clubs are able to run as they are subsidised by school using the sports premium. We are always looking into new clubs for the children (and they change throughout the year) and often send out letters to gauge interest in different sporting activities. Parents and children asked for a Mini-Kicks after-school club so this is now running from F2-Y2.

Staff training

Teachers have taken part in lots of training and will be undertaking more with our new relationship with Mini-Kicks. They are now much more confident in teaching PE and this is having a very positive impact on the children's progress and enjoyment.

Motor On

We have employed Motor On to work with children and staff. Every afternoon they work with 29 children who have difficulties ranging from behaviour to fine motor skills. The primary aim is to develop children's gross and fine control. Motor On will also be working with staff to train them to deliver these sessions themselves. Staff are going in to watch sessions and there is a staff training session.
